Behavior **58**, 27
Behavioural modification **58**, 127
Body mass index **58**, 199
Breaking bad news **58**, 244
Breast cancer **58**, 244

Caregiver **58**, 182
Child psychology **58**, 327
Chronic heart failure **58**, 27
Chronic obstructive pulmonary disease **58**, 192
Chronic pain **58**, 209
Chronic toxic encephalopathy **58**, 88
Classification system **58**, 252
Clinician-patient communication **58**, 4
Communication models **58**, 4
Communication skills training **58**, 104, 279
Communication skills **58**, 271
Communication training **58**, 265
Communication **58**, 35, 225, 252
Community culture **58**, 296
Complementary and alternative medicine **58**, 305
Complexity science **58**, 296
Computer tailoring **58**, 168
Continuing medical education **58**, 199
Cross-cultural comparison **58**, 252
Curriculum design **58**, 271

Decision aid **58**, 13
Dementia **58**, 312
Depression **58**, 35
Determinants **58**, 192
Diabetes **58**, 82
Doctor–patient communication **58**, 288
Doctors' attitudes **58**, 199
Doctors' diet **58**, 199
Doctors' knowledge **58**, 199

EDHEP **58**, 104
Educational model **58**, 199
Education **58**, 127
Effects **58**, 312
Elderly **58**, 203
Ethnicity **58**, 35

Food frequency questionnaire. **58**, 199

General practice **58**, 252, 279
Group sessions **58**, 88

HbA_{1c} **58**, 137
Health behaviors **58**, 27, 305
Health care professionals **58**, 127
Health education **58**, 235
Heart disease **58**, 82
Heart failure **58**, 146
High school pupils **58**, 164

Importance **58**, 71
Increasing donation rates **58**, 104
Influenza vaccination **58**, 203
Information **58**, 146
Injury prevention **58**, 168
Intercultural communication **58**, 288
Internet **58**, 305
Intervention study **58**, 288

Knowledge **58**, 82, 146, 154

LD **58**, 164
Learning disabilities (LD) **58**, 187
Literacy **58**, 235
Low literacy **58**, 63

Management **58**, 127
Measurement development **58**, 82
Medical education **58**, 47
Medical interviewing **58**, 4
Medical school **58**, 271
Medical students **58**, 265
Medication adherence **58**, 279
Medicine labels **58**, 63
Method/programs **58**, 127

doi:10.1016/S0738-3991(05)00206-5

Model of Planned Behavior **58**, 192
Motivational interviewing **58**, 279
